

Midway Hot Pots Resorts:

Schneitter's → Ritters → Homestead

1878 Simon Schneitter bot Farm from Samuel ^{Thompson} 12 room
1886 Simon Schneitter started a 2-story Hotel ("Virginia House")
& a swimming pool. Schneitter's Hot Pots
Food by Fannie Schneitter

Thomas Monks leased (Ran 7 yrs) Schneitter's (held horse races)
Jacob Schneitter purchased from his father Schneitter's
(Music by Brass Band by Robert Krebs) 2 Pools of
lumber
Fried chicken

W. W. Ritter Ritter's Hot Pots

Peter Kurellor ("Dutch Pete")

Ran it for 4 yrs

BOARD OF COUNTY COMMISSIONERS

LORINE E. ALLRED, CHAIRMAN

PETE A. COLEMAN

LARRY B. DUKE

January 25, 1988

We are enclosing "Affidavit of Personal Property" for the year 1988, which is to be completed and returned to this office not later than March 1, 1988.

Please fill out the affidavit as completely as possible. All information as to make, model, year and cost must be entered. Please read the instructions on the back of the Affidavit carefully.

If you need further information on this affidavit, please feel free to call Wasatch County Assessor's Office at 654-3211, Ex. 302.

Thank you for your co-operation in this matter and for the prompt return of the completed affidavit.

Sincerely,

Dean H. Moulton,
Wasatch County Assessor

37 Find the equation of line containing $(-4, -2)$ and $(-2, 1)$

Two point form: $y - y_1 = \frac{y_2 - y_1}{x_2 - x_1} (x - x_1)$

$$y + 2 = \frac{1 + 2}{-2 + 4} (x + 4)$$

$$y + 2 = \frac{3}{2} (x + 4)$$

$$y + 2 = \frac{3}{2} x + \frac{3}{2} \times 4 \quad \begin{matrix} \cancel{2} \times \frac{12}{3} \\ 2 \times 6 \end{matrix}$$

$$y + 2 = \frac{3}{2} x + 6$$

$y = \frac{3}{2} x + 4$ is the required equation.

39 $(2, -4)$ and $(4, -3)$

$$y - y_1 = \frac{y_2 - y_1}{x_2 - x_1} (x - x_1)$$

$$y + 4 = \frac{-3 + 4}{4 - 2} (x - 2)$$

$$y + 4 = \frac{1}{2} (x - 2)$$

$$y + 4 = \frac{1}{2} x - \frac{1}{2} \times 2$$

$y = \frac{1}{2} x - 5$ is the required equation.
